

MATRAVERS SCHOOL, WESTBURY, WILTSHIRE REFURBISHMENT AND ENLARGEMENT OF THE DT BLOCK

Before

Before

The brief was to upgrade the existing DT Block by creating an entrance through the old woodstore to both existing Classrooms and the new extension to the rear. This houses a Preparation Room for the technicians, a Staff Office and a large extraction unit linked to new dust extraction units connected to all woodworking machinery. There is a lintel in the wall of the new building at the end of the corridor to accommodate a future Classroom extension.

The Practice have also refurbished the Art Block, Domestic Science Block and converted a redundant Toilet into a Classroom.

New Entrance

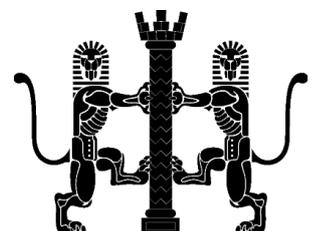

After

After, interior

The Practice is currently undertaking a Feasibility Study to refurbish and update the School's Science Laboratories.
